Join us in building a brighter future in foster care.

www.AllStarChildrensFoundation.org

You are cordially invited to join us as the All Star Children's Foundation breaks ground on its new 5-acre campus, where we will create a safe place to heal the trauma of child abuse! The campus will include:

- 12,000 square foot Clinical Building where All Star Children's Foundation, in collaboration with Johns Hopkins All Children's Hospital, will deliver trauma-informed therapies throughout our campus and in our outpatient programs
- 6 family-style, licensed foster homes
- Community Recreation Center
- Playground, picnic area, an outdoor movie theater, gardens and more!

This historic day will include a short presentation about the mission of ASCF, the vision for the campus, and our collaboration with Johns Hopkins All Children's Hospital. Take a tour of the grounds, enjoy light refreshments, and celebrate as the community comes together for this momentous occasion.

We look forward to having you join us as we build a brighter future in foster care.
